WORK EXPERIENCE

Archents IT India Pvt. Ltd [September 2018 - till date]

Client: XPO Logistics (Pacer International)

- Currently working as Business Intelligence Developer with Managed Transportation, involving shippers by outsourcing their freight and logistics processes to a third-party logistics (3PL) provider.
- Developing reports, maintaining report definitions, maintaining report manager portal using SQL Server Reporting Services (SSRS).
- Provide guidance on use cases for SQL Server, creating indexes to enhance performance.
- Functions managed also Includes reporting, online analytical processing, analytics, dashboard development, data mining, process mining, complex event processing, business performance management, benchmarking, text mining.

PROJECTS INVOLVED

1. Setup for Startups or Conversions

Involved actively in the Setup of new Client access to Internal OTM Environment on current servers.

Have accomplished Active Directory Group Setup and Security groups as well. Created other views/objects needed specifically for the new client.

2. Managed Trans DataMart Next Generation

Added new client's Service Account to Azure Storage Account, automating the Security Group Pipeline for Loading data to relevant tables.

Giving relevant permission to access data on Azure SQL DB for each group. Developed custom SQL queries and Collaborated with Azure support team to perform root cause analysis and fixed critical issues.

3. Migrate SSRS Reports to Replication

Operationalized BI solutions and alternative methods to establish effective data models for the conversion of 200+ reports from SSRS to Power BI.

4. Power BI Dashboards Optimization

Created real-time dashboards and reporting capabilities of KPI metric for insightful business intelligence visualizations.

Analyzed a logistical Client on their historical and current operational data by implementing Customer Specific Dashboard for acknowledging end-to-end facts and figures.
